Dear fellow Droughtmaster breeders and enthusiasts!

Hurwitz Farming has been associated with the Droughtmaster breed of cattle since 2013 and have been slowly building up the herd based on the primary principle of quality over quantity and are delighted to be sharing a select group of SP bulls that have all been born and bred at Hurwitz Farming. The bulls on offer are a result of a planned and strategic breeding program using a blend of principles primarily focussing on genotype, phenotype, functionality, fertility, adaptability and breed characteristics. There is a strong Australian influence in the herd which has been carried through from the herd's founding fathers and it is this Australian influence that has laid the bedrock for the certain 'type' of cattle that we are aiming to breed.

We are extremely proud to be offering this selection of bulls on our Summer Sale and have applied the philosophy of "something for everyone". There are definite potential herd sires on offer and there are beautifully balanced bulls destined to breed uniform weaners for the feedlot with a high retention of replacement heifers for the future. In general, the genetic composition of the bulls on offer represent $\frac{1}{4}$ Australian genetics which is the ideal influence for the South African market.

The bulls on offer are medium framed, hardy and easy fleshing. They have all grown up under tough highveld conditions within severe redwater territory and have matured into excellent examples of what Droughtmaster bulls should be. The bulls will prove to be highly adaptable and perfectly suited to anywhere and everywhere as they relocate throughout the country and continent.

Reminder of Hurwitz Farming's guaranteed buy-back policy of purchasing weaner calves at a premium price above market value for progeny sired by Hurwitz Farming bulls for Hurwitz Farming's feedlot.

Please join us at the auction on the 6th of October 2026 starting at 11:00 and if for some reason you are unable to attend, please join us online with Meerkat Online Auctions and SwiftVee.

Kind regards,

Simeon & Jarren Hurwitz

AN INTRODUCTION TO HURWITZ FARMING

Hurwitz Farming is a family-owned and operated diversified agricultural business located in Davel, Mpumalanga with a corporate head office located in Sandton, Johannesburg. The farming enterprise consists of several independent yet inter-related divisions all under separate management structures and divisions allowing for effective management and inter-departmental assistance as and when required.

A BRIEF SUMMARY OF WHAT WE DO:

Hurwitz Feedlot

With a standing headcount capacity of 8000 head of cattle, our feedlot department feeds all grades of beef cattle from a backgrounding phase through to contract slaughter as well as custom feeding. The feedlot buys in weaner calves all year round from all over the country and pays a premium price above current market value for the progeny of bulls previously purchased from Hurwitz Farming.

Hurwitz Studs

The largest concentration of our cattle department is the Boran herd which incorporates our commercial herd by way of recipients for embryo flushing programs and transfers. Concurrently with the Boran herd, we also run a herd of registered Droughtmaster cattle which have proven themselves to be equally hardy, adaptable and well suited towards the extensive farming conditions all our cattle run under.

Quarantine Station

Having one of the very few registered quarantine facilities in Mpumalanga, we have the ability and the diversity to import and export genetic cattle material as well as livestock.

The Bull Ring Auction House

The Bull Ring Auction House was erected to accommodate our own annual stud auctions and has also become a popular auction venue and conference facility for the local community and corporate business.

Green Star Contractors

Green Star Contractors takes care of our internal agricultural farming activities where we produce a variety of crops as well as grass and silage-based feed on approximately 3 500 hectares. We make use of modern, large scale and efficient equipment that embraces as much technology and precision as possible. This division is also often called upon to provide turn-key services to other farmers within the broad field of agricultural activities.

Our speciality and core focus within the contracting division is definitely in the field of silage and fodder production. We maintain a national footprint where we produce the highest quality silage from many different types of crops and grasses throughout the year with an exceptionally large and well mechanised fleet of specialised equipment. This also includes the silage bagging function which we pioneered in the country and which also includes our Silage Africa division. Green Star Contractors also has a wide fleet of transport equipment catering for all transportation requirements from low bed to cattle to fodder to grain carrying trailers.

Hurwitz Wildlife

Hurwitz Wildlife specializes in premium Zambian Sable Antelope and we have been offering both breeding stock and trophy hunting stock to the market for the past year. We recently added a new Zambian bull as well as a Western Zambian bull to our breeding program.

RULES FOR SALES HELD UNDER THE AUSPICES OF THE DROUGHTMASTER SA CATTLE BREEDER'S SOCIETY

1	INTRODUCTION	3
2	APPLICATION TO HOLD A SALE UNDER THE AUSPICES OF THE DROUGHTMASTER SA SOCIETY	3
3	REQUIREMENTS FOR ANIMALS, EMBRYOS AND SEMEN ON OFFER	4
4	CATALOGUE	5
5	SCREENING	5
6	DUTIES OF THE AUCTIONEER	6
7	DISPERSAL SALES	7
8	COMMISSIONS and FEES	7
9	BUYERS	8
10	GENERAL RULES	8

1 INTRODUCTION

- 1.1 Members of the Society are encouraged to sell registered Droughtmaster SA animals under the auspices of the Society. This will ensure that:
 - 1.1.1 the Droughtmaster SA comply with the Society's minimum standards of purity and functionality,
 - 1.1.2 the Droughtmaster SA are of consistent quality and high standard,
 - 1.1.3 your clients are protected in that all animals on offer meet the breed standards,
 - 1.1.4 your clients have a reliable method of addressing possible queries and complaints,
 - 1.1.5 the breed develops a trustworthy reputation in the beef industry which builds buyer confidence and peace of mind,
 - 1.1.6 the society can support you in the event of queries, dispute resolution, marketing and publicity,
 - 1.1.7 the benefit of "quality at a fair price" is offered to both buyers and sellers and thereby builds the trust of the buyer market, ensuring the sustainability of our breed.
- 1.2 The Society will approve any production sale of registered Droughtmaster SA cattle provided that:
 - 1.2.1 Prior to the announcement of such sale, the seller must contact Society with the details of the sale.
 - 1.2.2 Both the Sellers and the Society will sign a written agreement
 - 1.2.3 The Seller adheres to the requirements detailed further in this document.
 - 1.2.4 Should the requirements detailed not be met, the Society will be entitled to:
 - 1.2.4.1 renegotiate the requirements.
 - 1.2.4.2 withdraw permission that the sale be presented under the auspices of the Society.
 - 1.2.4.3 if warranted, suspend the membership of the relevant member.

2 APPLICATION TO HOLD A SALE UNDER THE AUSPICES OF THE DROUGHTMASTER SA SOCIETY

- 2.1 All sellers must be fully paid-up members of the Droughtmaster SA Breeders' Society.
- 2.2 The Society and the appointed organiser will handle all communication pertaining to the sale. The organiser will be responsible for the communication with other sellers involved with the sale.
- 2.3 On approval of the application the Society office will furnish the organiser with the official entry forms, which must be completed and returned to the office at least 2 (two) months prior to the date of the relevant sale.
- 2.4 All animals to be offered on sale must be present on the entry form, DNA information required must also be available if requested by the office. Office will not allow animals to be added to the entry form if outside the mentioned days.
- 2.5 Each seller and the Society will sign a written agreement concerning the conditions that will apply to the sale.
- 2.6 It is the responsibility of the seller to provide all fertility, pregnancy and health certificates prior to the sale and deliver the originals to the auctioneers before the screening date and time.
- 2.7 It is recommended that sales in the same area should not be presented within one week of each other (a province will be regarded as the guide) unless the organisers of both sales agree to such an arrangement.
- 2.8 Only in exceptional cases will more than one sale on the same day be permitted provided that it is held in different regions with different climatic conditions and with no conflicting interests of buyers. The organisers of both sales must agree to such an arrangement.
- 2.9 No other sale may be held three (3) weeks prior to the National sale.
- 2.10 Existing sales with history will be taken into consideration when sale dates are allocated by the Society.
- 2.11 A document detailing the rules and duties of the auctioneers will be submitted to the relevant auctioneers for their signature. The Society reserves the right not to approve an application for a sale to be presented under the auspices of the Society should it emerge that the auctioneering firm is in disrepute with the Society.
- 2.12 Council and staff members of the Society, in their personal capacity, are indemnified against any claims lodged by either buyers or sellers arising from the sale of animals at such a sale.

3 REQUIREMENTS FOR ANIMALS, EMBRYOS AND SEMEN ON OFFER

3.1 Society and Legislative Requirements

- 3.1.1 All animals on offer must be registered with the Droughtmaster SA Cattle Breeders' Society, except calves at foot, whose birth must have been officially recorded. Such calves may not be older than eight months of age on the date of the sale. Potential sellers must therefore ensure that animals to be presented at a sale under the auspices of the Society are inspected well ahead of time – either at their annual inspection or arrange a special inspection.
- 3.1.2 Animals not conforming to the minimum breed standards of the Society may not be sold at a sale offered under the auspices of the Society.
- 3.1.3 The pregnancy status of cows on offer must be such that they calve according to the minimum reproduction standards as specified in the Byelaws of the Society.
- 3.1.4 No calf that has been notified as "not for registration" may be offered for sale.
- 3.1.5 **No female may be offered that is knowingly in calf to any bull other than a registered Droughtmaster SA bull.**
- 3.1.6 Embryos offered for sale must be:
 - 3.1.6.1 flushed from donor cows registered with the Society.
 - 3.1.6.2 accompanied by a signed certificate confirming parentage details, the grade of the embryo and confirmation that the embryos were collected by a registered embryologist at a registered quarantine station.
 - 3.1.6.3 If an embryo flush is on offer clearly state who is responsible for which costs.
- 3.1.7 In the case of cows that have been embryo donors, a signed embryologist report confirming:
 - 3.1.7.1 the number of times the donor has been flushed.
 - 3.1.7.2 the number of embryos flushed.
 - 3.1.7.3 This report must be submitted at least 28 (twenty-eight) days prior to the date of sale.
 - 3.1.7.4 The donor cow will be omitted from the catalogue if this information is not submitted in time.
- 3.1.8 **All heifers must calf before 39 months of age. (excluding Promotion Sale – all females on this sale must be pregnant or with calf) Pregnant females must on the date of the sale be certified in calf by a registered veterinarian.**
- 3.1.9 **The minimum age for females entered is 15 (fifteen) months on the date of the sale.**
- 3.1.10
 - a) **The minimum age for bulls entered is 18 (eighteen) months on the date of the sale.**
 - b) **The maximum age for bulls entered at the Promotion Sale is 6 years.**
 - c) **All Droughtmaster SA bulls on sale must be de-horned.**
 - d) **Only F3 & SP Droughtmaster SA bulls are allowed on sale.**
- 3.1.11 A cow may be sold as a 3 in 1 (cow confirmed in calf with a calf at foot) on condition that she is confirmed in calf on the date of sale, complies with rule 3.1.3 and that the calf at foot is not older than 8 months.
- 3.1.12 If semen straws are retained by the seller of a bull, this must be declared by the seller as part of the information that appears in the sale catalogue.
- 3.1.13 When an animal that is jointly owned is offered for sale:
 - 3.1.13.1 The seller must specify the percentage share to be sold together with any other conditions or restrictions that may apply.
 - 3.1.13.2 The progeny of the said animal, as recorded, must be included in the catalogue.
- 3.1.14 As from 01/01/2025 all bulls offered on auction must be tested for Myostatin (Q204X, NT821, F94L)
- 3.1.15 As from 01/01/2027 all animals with a lot number (male and female) offered on auction must be tested for Myostatin (Q204X, NT821, F94L)

3.2 Animal Health

- 3.2.1 **All animals offered must have been tested negative in respect of CA and TB as near as possible to the sale date, but not more than three months prior to the date of the sale.**
- 3.2.2 **TB and CA tests on calves sold at foot with their Dams are not necessary.**

- 3.2.3 If any of the animals offered for sale test positive for CA, TB, Trichomoniasis or Vibriosis, all the animals offered for sale by the breeder must immediately be withdrawn from the sale, and the office must be informed.
- 3.2.4 Pregnancy certificates stating number of months pregnant must be presented to the auctioneer and must correspond with the information given to the office when compiling the catalogue. The pregnancy certificate may not be older than three months prior to the date of the sale.
- 3.2.5 Bulls on offer must, within three months (90 days) preceding the date of sale:
 - 3.2.5.1 have been tested by a veterinarian or a registered veterinary technologist/semen collector for breeding soundness (external & internal genitalia, rectal examination, macro and microscopic evaluation of semen sample).
 - 3.2.5.2 be tested negative in respect of Trichomoniasis, Vibriosis, CA and TB.
 - 3.2.5.3 be run separately from females from the test date up to the date of the sale.
- 3.2.6 Only semen from AI bulls approved by the Society and registered with SA Stud Book and collected by a registered semen collector at a registered quarantine station, may be offered for sale. The applicable certification from the quarantine station must be submitted to the Society at least 28 (twenty-eight) days prior to the sale date.
- 3.2.7 The relevant health and pregnancy certificates must be submitted to the auctioneer prior to offloading the cattle at the sale. No animals will be allowed to be offloaded at the sale if the TB and CA certificates are not presented to the auctioneer or his official responsible for offloading.
- 3.2.8 Council reserves the right to institute disciplinary action against a breeder who had, according to the discretion of Council, administered hormones/steroids to an animal which is regarded as unethical and a misrepresentation of such animal.
- 3.2.9 Must adhere to the rules of the Animal department for foot and mouth.
- 3.2.10 With effect from 1 January 2027, all fertility and pregnancy certificates must be submitted to the office.
- 3.2.11 All veterinary documentation must be submitted to the office at least 21 days prior to the auction and before the catalogue is finalised.

4 CATALOGUE

- 4.1 The seller is required to submit all the required information to the Society 28 days before the date of the sale.
- 4.2 The seller must provide all the relevant information required on the entry form.
- 4.3 Upon receipt of the relevant entry information, the Society will check the entries and submit a concept sale catalogue within 21 (twenty-one) days of the date of the sale to the sale organiser for approval. A period of 5 (five) working days will be granted to the organiser to submit any changes that are required. The Society will then submit the final catalogue to the auctioneers two weeks prior to the sale date.
- 4.4 Should any information provided by the breeder to the society for the catalogue, change between the date of submission in 4.3 above and the sale date then the onus is upon the breeder to advise the office, the auctioneer and the inspectors responsible for the screening prior to screening of any such changes.
- 4.5 All the breeders' registered animals for sale will be listed in lot sequence in the catalogue.
- 4.6 The rules pertaining to the sales presented under the auspices of the Society must be published at the front of the sale catalogue.
- 4.7 No changes to the catalogue can be made after the entry date has expired.

5 SCREENING

- 5.1 The purpose of the screening:
 - 5.1.1 is to verify the identification of the animals on offer.
 - 5.1.2 is to inspect them for functional faults and compliance with Society norms and minimum breed standards.

- 5.1.3 is to verify that animals that have been flagged by the administrative office meet minimum production standards on the day of the sale.
- 5.2 Two inspectors, appointed by the Society, will screen all animals offered for sale of which at least one must be a senior inspector.
- 5.3 The inspectors officiating at a sale screening may not sell animals on that same sale.
- 5.4 Sale animals must be available for screening well in advance, preferably 2-4 weeks before the sale on the farm. The day before the sale, animals will only be screened for injuries or obvious faults that were missed during earlier inspections. Droughtmaster SA office will appoint two (2) inspectors for screening animals as sale worthy for the National sale and one (1) inspector for all other sales.
- 5.5 Only the auctioneer's representative will be allowed to accompany the nominated inspectors during screening.
- 5.6 The inspectors will advise the buyers of animals that have been screened off the sale.
- 5.7 Sellers must be present or at least contactable after screening. Should sellers not be present, the information will be given to the representatives of the auctioneering firm.
- 5.8 The auctioneer must present all Veterinary certificates at the screening to the inspectors.
- 5.9 The inspectors will advise the representative of the Auctioneering firm of any animals that fail the screening, and the registration status of each of these animals will be immediately suspended. The findings of the inspectors will be final and no appeal inspection will be allowed at the auction venue. The appeal inspection will be carried out on a date to be agreed between the Society and the seller.
- 5.10 **An animal that fails the screening process may not be sold at that auction.**
- 5.11 Animals rejected during auction screening must be removed from the premises
- 5.12 No other type of inspection may be carried out during sale screening.
- 5.13 At least one of the inspectors involved in the screening will be available on the day of the sale to provide a marketing presence for the seller and the society, to act in an advisory capacity to buyers and ensure that the auction is conducted in compliance of the above rules.

6 DUTIES OF THE AUCTIONEER

- 6.1 The auctioneer must complete in full the applicable Society form and return it to the Society office duly signed.
- 6.2 As the sale will be presented under the auspices of the Society, the sale pamphlet as well as all other advertising copy must be submitted to the Society for approval prior to publication. The official/approved Society logo must appear on all advertising and the words "Sale held under the auspices of the **Droughtmaster SA Cattle Breeders' Society**".
- 6.3 The rules pertaining to sales presented under the auspices of the Society, together with other information supplied by the Society, must be published at the front of the sale catalogue.
- 6.4 Only animals in the catalogue may be sold.
- 6.5 No animals will be allowed to be offloaded at the sales venue if the TB and CA certificates are not presented to the auctioneer or his official responsible for offloading.
- 6.6 The auctioneer will provide two (2) personnel to assist the inspectors with the screening of sale animals.
- 6.7 The auctioneer is responsible for submitting all the health, fertility and pregnancy certificates for each animal on sale to the Society inspectors prior to screening for verification. The auctioneers are then responsible for distributing all these certificates to the new owners after the sale.
- 6.8 The membership numbers of buyers that are registered Droughtmaster SA breeders must be obtained and included with the details of animals purchased by such buyers in the vendor role.
- 6.9 Before commencement of a sale under the auspices of the Society,

- 6.9.1 the Auctioneer will explain the meaning thereof,
 - 6.9.2 the Auctioneer will explain the meaning of 5.1 above,
 - 6.9.3 will advise the buyers that the rules of the auction are included in the catalogue,
 - 6.9.4 and will advise buyers that they have 90 days from the date of sale to address any issues of concern with the seller that require resolution.
- 6.10 The contracted Auctioneer is responsible for ensuring, that between his organisation and the sellers, adequate public liability insurance cover is in place for the auction.

7 DISPERSAL SALES

- 7.1 *A Breeder who is permanently discontinuing the business of breeding and farming with registered Droughtmaster SA will hold a dispersal sale in order to sell all his registered animals at a single sale to facilitate de-registration as an active breeder with the society.*
- 7.2 *All the requirements for sales under the auspices are applicable to dispersal sales, as well as the following:*
- 7.2.1 *If a breeder intends to hold the dispersal sale in two parts, that is the registered animals first and the younger animals later after they had been inspected and approved, he may in writing request Council to extend his membership for the agreed upon period.*
 - 7.2.2 *It must be clearly understood that the arrangement of further sales under the auspices of the society, subsequent to the sales as contained in the agreement with the Society, will not be permitted.*
 - 7.2.3 *One year after the first dispersal sale, the breeders' active membership of the Society and membership of SA Stud Book will be cancelled and all animals not sold will be transferred to a non-member number. Such person may remain as a non active ordinary member. After a lapse of five (5) years he may re-apply for active membership of the Society and SA Stud Book.*
 - 7.2.4 All Droughtmaster SA registered with the Society (SP Reg.) on the date of application in the name of the relevant breeder, company, trust, closed corporation, partnership, or stud names in which he has an interest, must be presented on the first dispersal sale. No registered animals may be sold out of hand between the date of application and the first dispersal sale.
 - 7.2.5 All semen straws and embryos collected from Droughtmaster SA in 7.2.4 and in the breeder's, possession must be offered for sale.
 - 7.2.6 **Droughtmaster SA animals sold on a dispersal sale may not be transferred as registered animals to the seller's wife/husband/family member, or any organisation (e.g. Company, trust, closed corporation, partnership or stud names) in which he has an interest.**
 - 7.2.7 **A breeder may sell his Herd Designation Mark at his dispersal sale. This will be activated on completion of the required SA Stud Book cession form.**
 - 7.2.8 The Society and SA Stud Book membership of a breeder (or of the concerns selling, who have successfully applied for the presentation of a total dispersal sale under the auspices of the Society) will be extended to the end of the financial year within which the final sale takes place, and the full membership fee in respect of that period will be payable by the member/concerns. Thereafter the membership of the seller/s will be terminated or transferred to the non-active member list if the seller/s so wish. Under either of the aforementioned conditions, the seller/s concerned may only re-apply for registered breeder membership upon the lapse of 5 (five) years.

8 COMMISSIONS and FEES

- 8.1 The Society will receive a commission (1% of the turnover), as fixed from time to time by the Council, in respect of all sales held under the auspices of the Society. This will be calculated as a percentage of the total turnover of the sale. The commission will be collected from each seller and paid across to the Society within 7 (seven) working days, failing which penalty interest at the ruling prime rate will be levied. This commission will be deducted from the sellers by the auctioneering firm and paid to the Society.
- 8.2 Sellers who privately sell animals after the sale, will be liable for the total commission as set out in the sale agreement, if those animals were entered for the sale and went through the ring.

8.3 Commission will be applicable on semen and embryo sales.

8.4 The commission of the breed advisor will be for the sellers account except for the Promotion Sale where the Society will be responsible.

9 BUYERS

9.1 Should a problem arise with an animal that a buyer has purchased on the sale he has three months to address the issue with the seller.

10 GENERAL RULES

10.1 All animals advertised must be presented on the day of the sale and the Society reserves the right to demand veterinary certification regarding an animal withdrawn, other than in the case of death and the subsequent cancellation of the animal.

10.2 All applications for other forms of sale (e.g., internet sale under the auspices of the Society) should be submitted to the Society in sufficient time to allow for the practical application of the principles contained in this document.

The successful marketing of Droughtmaster SA stud animals is an important feature of our members' economic success. For this reason, all steps must be taken to ensure that the Droughtmaster SA we sell, meet our breed standards and our requirements of quality. This is the only way we can build the trust of the buyer market. In addition, breeders are expected to conduct themselves with integrity, and with the shared values and ethos of our fellow breeders and the society.

Best wishes for a successful sale.

RULES OF AUCTION

In respect of sales by

Hurwitz Farming (Pty) Ltd (Reg No. 2017 / 263935 / 07) of Postnet Suite 122 Private
Bag X9 Benmore GAUTENG 2010 Tel: +27 (11) 802-8610 / E-mail: info@hurwitz.co.za
(Hurwitz Farming hereinafter referred to as the "Auctioneer")
and Johan van der Nest, conducting the auction referred to as the "auctioneer")

1. The Sale by auction is subject to a reserve price, unless specifically stated to the contrary by the auctioneer.
2. The seller (owner) and/or his agent and the auctioneer may bid up to the reserve price of the owner (seller), but shall not be entitled to make a bid equal to or exceeding the reserve price.
3. This Rules Of Auction comply with Section 45 of the Act and the Regulations of the Act and Section 45 of the Consumer Protection Act, Act 68 of 2008 ("the Act") read as follows:

"Auctions:

45. (1) In this section, "auction" includes a sale in execution of or pursuant to a court order, to the extent that the order contemplates that the sale is to be conducted by an auction.
- (2) When goods are put up for sale by auction in lots, each lot is, unless there is evidence to the contrary, regarded to be the subject of a separate transaction.
- (3) A sale by auction is complete when the auctioneer announces its completion by the fall of the hammer, or in any other customary manner, and until that announcement is made, a bid may be retracted.
- (4) Notice must be given in advance that a sale by auction is subject to –
 - (a) a reserve or upset price; or
 - (b) a right to bid by or on behalf of the owner or auctioneer, in which case the owner or auctioneer, or any other person on behalf of the owner or auctioneer, as the case may be, may bid at the auction.
- (5) Unless notice is given in advance that a sale by auction is subject to a right to bid by or on behalf of the owner or auctioneer –
 - (a) the owner or auctioneer must not bid or employ any person to bid at the sale;
 - (b) the auctioneer must not knowingly accept any bid from a person contemplated in paragraph (a); and
 - (c) the consumer may approach a court to declare the transaction fraudulent, if this subsection has been violated.
- (6) The Minister may prescribe requirements to be complied with by an auctioneer, or different categories of auctioneer, in respect of –
 - (a) the conduct of an auction;
 - (b) the records to be maintained with respect to property placed for auction; and
 - (c) the sale of any property by auction.

4. The auctioneer will during the auction announce the reason for the auction unless the reason is the normal and voluntary disposal by the owner.
5. The auction will commence at the published time and will not be delayed to allow any specific person or more persons to take part in the auction.
6. All goods and livestock (hereinafter referred to as the "assets") are sold by the Auctioneer as agent on behalf of the Seller, who hereby authorizes the Auctioneer to collect the purchase price from the Buyer and the seller do hereby cedes to the Auctioneer all the seller's rights, title and interest in and to its claim for payment of the purchase price against the Buyer which session the Auctioneer do hereby accepts.
7. The purchase price excludes VAT and VAT must be added to the purchase price and paid by the Buyer, unless specifically stipulated otherwise by the auctioneer.
8. All assets shall, immediately after the bid has been knocked down and accepted by the Seller, be deemed to have been delivered to the Buyer. Notwithstanding delivery, the Buyer shall not be entitled to remove any purchased assets unless the total amount reflected on the Auctioneer's invoice in respect of such assets has been paid in full.
9. Notwithstanding delivery, ownership of the purchased assets will not pass to the Buyer until the full purchase price plus interest, if any, is paid.
10. Subject to any reserve placed on any of the assets by the Seller, and the provisions of clause 11 and 12 below, the Buyer at any sale shall be the highest bidder indicated by the auctioneer by the fall of the hammer or by such other means as he or she may select.
11. The auction shall take place under the exclusive control of the auctioneer. The auctioneer reserves the right, in its sole discretion, to refuse the bid of any person, to regulate the bidding and to indicate the highest bidder. If the auctioneer suspects that a bidder has not made a bona fide bid, or is unable to pay the purchase price or has not made satisfactory arrangements for payment of the purchase price, he may refuse to accept the bid of such bidder or accept it provisionally until the bidder has satisfied him that he is in position to pay the purchase price or that he has made satisfactory arrangements for payment thereof. On refusal of a bid under such circumstances the assets may immediately be re-auctioned.
12. In the event of a dispute arising amongst the bidders and or the Auctioneer, the assets in dispute shall, at the sole discretion of the auctioneer, be re-auctioned.
13. Any error by the auctioneer shall be entitled to be corrected by him or her upon discovery.
14. All profit, loss or risk in the assets will pass to the Buyer once it has been delivered to the Buyer who shall at his own risk and expense remove it from the sale venue, subject to 8 above. The Buyer shall be responsible for all costs incurred by either the Seller or the Auctioneer until actual removal of the assets.
15. Should any contractor remove any assets from the sale venue on instruction of the Auctioneer, on behalf of the Buyer, the contractor will be deemed to be the contractor of the Buyer who accepts all costs and risks connected with such removal.
16. The Seller warrants that there are no encumbrances on such assets, that the said assets are the property of the Seller, and that the Seller is competent and legally entitled to dispose of the assets. The Seller further warrants as against the Buyer that the assets are free of any patent or latent defects.
17. The Seller, who offers the assets for sale, accepts all liability regarding the information furnished as to pedigrees, ages, dates of service, state of health or gestation or any other particulars which might be incorrect. In the event of any dispute the Buyer shall only have a claim against the Seller and not against the Auctioneer.
18. The Seller warrants as against the Auctioneer that the assets are free of patent and latent defects and that any right or claim ceded to the Auctioneer in terms of these Rules Of Auction is free of any defect or right of deduction or set-off, and that the said right or claim is fully and immediately enforceable against the Buyer.
19. The Buyer shall, prior to the sale, ascertain whether there are any defects in the assets and any bid by a Buyer shall be considered as acceptance of the assets with any patent or latent defects in their condition at the time of sale.
20. The Buyer shall not be entitled to withhold payment of the purchase price to the Auctioneer as a result of any possible or pending claim that he may have against the Seller on the grounds of misrepresentation or for any other reason whatsoever.

21. The purchase price is payable by the Buyer to the Auctioneer in cash (to the discretion of the Auctioneer) or by bank-guaranteed cheque on the date of sale ("the payment date") unless other payment terms and or means are agreed between the Auctioneer and the Buyer. The Company reserves the right to refuse any method or means as payment.
22. Seller before the Buyer makes payment to the Auctioneer ("the Payment Terms Agreement"), then the following shall apply:
 - 22.1 The election to make any payment to the Seller shall be in the sole and absolute discretion of the Auctioneer, which discretion may be exercised separately in regard to each transaction entered into by the Buyer.
 - 22.2 Upon payment of the amount referred to in 10.1 above the Seller's right, title and interest in and to any claims and other rights as against the Buyer in terms of or connected with the sale of the assets shall forthwith be ceded and transferred to the Company which session the Auctioneer hereby accepts.
23. In the event of any Payment Terms Agreement between the Auctioneer and the Buyer, the following shall apply:
 - 23.1 No Payment Terms Agreement shall be valid unless reduced to writing and duly signed on behalf of the Auctioneer. The facilitation of any sale by the Auctioneer as referred to in this paragraph 10 shall be strictly subject to the terms and conditions of the Payment Terms Agreement.
 - 23.2 In the event of any conflict between the contents of this document and the Payment Terms Agreement, the provisions of the Payment Terms Agreement shall prevail.
 - 23.3 No application for credit as defined in section 8 of the National Credit Act, Act 34 of 2005, will be received or considered by the Auctioneer.
24. Anyone that intends to bid at the auction (Buyer) must register his or her identity on the bidder's record prior to the commencement of the auction and such registration must meet the requirements of the FICA (Financial Intelligence Centre Act, 2001) in respect of the establishment and verification of identity of the person and the person must sign the registration entry and the prospective Buyer must furnish the Auctioneer with a copy of his/her identity document and proof of residence.
25. Any person who purchases on behalf of a Principal (i.e. natural person) must furnish the Auctioneer with a written signed Power of Attorney, prior to the commencement of the auction, failing which he/she will be personally liable for payment of any purchases made by him/her. The person bidding on behalf of or signing any document on behalf of the Buyer pursuant to a successful bid hereby binds himself/herself personally as co-principal debtor with the Buyer for payment of the purchase price and personally guarantees all the obligations of the Buyer under this Rules Of Auction.
26. A person who attends the auction, to bid and to sign the bidder's record, on behalf of another person (i.e. on behalf of a company or legal entity) must produce a signed letter of authority that expressly authorizes him or her to bid or sign the bidder's record on behalf of that person. Where a person is bidding on behalf of another entity the letter of authority must appear on the letterhead of the entity and must be accompanied by a certified copy of the resolution, if required, authorizing him or her to bid on behalf of the entity. The person bidding on behalf of or signing any document on behalf of the Buyer pursuant to a successful bid thereby binds himself personally as co-principal debtor with the Buyer for payment of the purchase price and personally guarantees all the obligations of the Buyer under these Rules Of Auction.
27. In the event where a Buyer allows another person to purchase on his or her buyer's number, the registered Buyer shall be liable for payment of such purchases. No bid by an unregistered Buyer will be accepted by the auctioneer and the Buyer will have no claim to any of the assets allegedly purchased by him.
28. Until all amounts owing by the Buyer have been paid in full, the Buyer hereby:
 - 28.1 irrevocably undertakes to identify the purchased assets in such a manner that he can at any time identify and indicate the assets deemed to be the property of, and pledged to, the Auctioneer.
 - 28.2 grants the Auctioneer at all reasonable time's access to the premises where the assets are stored or kept for the purposes of perfecting its pledge and exercising any other rights in terms of these Rules Of Auction.
29. The Buyer and the Seller hereby consent to the jurisdiction of the Magistrate's Court in terms of Section 45 of the Act on Magistrate Court (Act 32 of 1944 as amended) for any action instituted by the Auctioneer against the Buyer although the Auctioneer is entitled to institute proceedings in any competent Court.
30. A certificate issued by a Manager of the Auctioneer, whose appointment and authority shall not be necessary to prove, shall be prima facie proof of the amount owing by the Buyer to the Seller or the Auctioneer.
31. Any indulgence granted by the Auctioneer to the Buyer or the Seller will not prejudice the rights of the Auctioneer in terms of these Rules Of Auction and such indulgence will not constitute an amendment or waiver or novation of these Rules Of Auction.
32. The entries made in the Company's auction roll shall be prima facie evidence of the transaction and shall be binding on the Seller and the Buyer.
33. The bidder's record and the vendor or vendu roll will be made available for inspection within reasonable time after the auction at the office of the Auctioneer during normal business hours free of charge.
34. The Auctioneer does have a trust account into which all money will be paid for the benefit of the Seller.
35. Any assets entered or offered for sale are subject to payment by the Seller/Buyer of the agreed commission, or in absence of agreement the usual commission by the Seller/Buyer to the Auctioneer at the rate customarily charged by the Auctioneer from time to time, whether the assets are sold at the auction or thereafter, or at any time thereafter by private treaty. Unless otherwise agreed in writing, commission shall become due and payable by the Seller/Buyer upon the fall of the hammer or upon the entering into of any private treaty involving the Seller's said assets, whichever date is the earlier, and notwithstanding any breach on the part of the Seller/Buyer.
36. Every bid shall constitute an offer to purchase the property or goods for the amount bid, which the Seller or the auctioneer may accept or reject in their absolute discretion. The seller and auctioneer are entitled, in their absolute discretion to withdraw the property or goods from the sale prior to acceptance by the seller.
37. If no bid equals or exceeds the reserve price, if any, the property or goods may be withdrawn from the auction.
38. The Auctioneer accepts no liability for any withdrawal of assets from sale.
39. No bid may be withdrawn after the fall of the hammer until the expiry of the confirmation period (if any) that is provided for in the Conditions of Sale, during which time the offer shall be open for acceptance by the Seller or his agent and if the offer is accepted the sale shall be deemed to be a sale by auction for purposes of the Act.
40. The highest bidder in respect of immovable property, being the Purchaser, shall sign the Conditions of Sale immediately after the fall of the hammer.
41. The purchaser's offer in respect of immovable property shall only be deemed to have been accepted when the seller or his agent or whichever may be applicable, has signed the Conditions of Sale on behalf of the Seller in the space provided at the end of the Conditions of Sale.
42. In the event of the sale requiring the consent of any statutory authority or any court of law, then this auction will be subject to the granting of such consent.
43. Any agreement contrary to these Rules Of Auction shall not be binding unless it is confirmed in writing and signed by a Manager of the Auctioneer.
44. The Company reserves the right to amend these Rules Of Auction in writing.
45. By entering a bid any prospective Buyer binds himself or herself to this Rules Of Auction.

10 11 12 13 16 14 15 17 18 19 20 21 22 23 25 26 27

The Logix Selection Values are compiled of specific genetic building blocks, as indicated in the selection value descriptions on the next page. These genetic building blocks are indicated in the catalogue by their Breeding Value indices and accuracies.

PHENOTYPIC VALUES

Birth Weight	205D Weight	365D Weight	540D Weight	ADG Index	FCR Index	Scrotum	LH
47kg	239kg 109 (19)	284kg 99 (10)	390kg 92 (10)	1680g/d 90 (13)	6.08 98	353mm (D1)	1.20

10 12 19 20 16 24

- 205D, 365D, 540D weights - adjusted weaning, year and 18 month weights, the phenotypic index obtained, and the number of animals in the contemporary group
- ADG and FCR Indices - phenotypic index obtained within the animal's contemporary group
- Scrotum - adjusted scrotal circumference, in mm, as measured at the end of the growth test, as well as the growth test type
- Length-Height Ratio (LH) - the animal's length to height ratio, as measured at the end of the growth test

LOGIX SELECTION VALUES

COW VALUE 108	
103	Calving Ease Value
118	Calf Growth Value
86	Milk Value
80	Maintenance Value
110	Fertility Value
GROWTH VALUE 105	
CARCASS VALUE 110	
PRODUCTION VALUE 103	

Logix Cow Value

Selection of:

- Fertile cows,
- with low maintenance,
- that calf easily,
- and wean heavy calves relative to own weight

Calving Ease Value

Low birth weight calves

Calf Growth Value

Heavy weaner calves

Milk Value

Good mothering ability

Maintenance Value

Low cow weight

Fertility Value

Fertile cows (calve early and regularly while family is retained in stud herds)

Measurement: Birth weight
EBVs: Birth Weight Direct and Maternal

Measurement: Weaning weight
EBVs: Weaning weight Direct

Measurement: Weaning weight
EBVs: Weaning weight Maternal

Measurement: Mature cow weight, Weaning weight
EBVs: Mature weight + 10% Wean Maternal

Measurement: Age at first calving, ICP and retention
EBVs: Heifer fertility, Cow fertility, and Longevity

Logix Growth Value

Selection for efficient growers on veld and in feedlot

Measurements: Phase C and D Growth test traits

EBVs: Weaning weight, End weight, ADG and Intake

Logix Carcass Value

Selection for higher meat yields on a carcass

Measurements: Phase C and D Growth test traits, RTU scanning traits

EBVs: End weight, Eye Muscle Area and Fat

Logix Production Value

Selection for profitable animals

80% of the Cow Value, and 20% of the Growth Value

HOW TO USE SELECTION VALUES

Logix Breeding Value Indices and Selection Values are versatile and can be used effectively to select various types of animals suitable for different environments and markets. Three examples of selection goals are shown. Always check all selection values for compatibility with your specific selection goal and never select only on the Cow Value.

AVERAGE ANIMALS

(NO GROWTH EXTREMES)

COW VALUE 115	
108	Calving Ease Value
106	Calf Growth Value
106	Milk Value
101	Maintenance Value
100	Fertility Value

- Selection Values 90 to 110
- Cow Value & Fertility Value average to high

A safe choice, as animals are profitable in most environments.

GROWERS

(GOOD ENVIRONMENT)

COW VALUE 115	
86	Calving Ease Value
122	Calf Growth Value
116	Milk Value
81	Maintenance Value
100	Fertility Value

- Calf Growth / Growth Value > 110
- Cow Value & Fertility Value average to high

Growers are heavier at birth (lower Calving Ease Value), and heavier at maturity (lower Maintenance Value).

LOW-MAINTENANCE ANIMALS

(HARSH ENVIRONMENT)

COW VALUE 115	
112	Calving Ease Value
96	Calf Growth Value
117	Milk Value
115	Maintenance Value
100	Fertility Value

- Maintenance Value > 110
- Cow Value & Fertility Value average to high

Lighter cows have a lower maintenance (higher Maintenance Value).

EXPLANATION OF BREEDING VALUES AND SELECTION VALUES

Traits		Description/Measurement	Goal	General Guidelines				
				<80	<90	90-110	>110	>120
Selection Values	1 Cow Value	Combination of Calving Ease, Calf Growth, Milk, Maintenance and Fertility Values (Rand-Value)	Profitable Cow	Loss				Profit
	2 Calving Ease Value	Risk for calving problems (calf too heavy) vs calf too small	Avg. birth weight	High				Low
	3 Calf Growth Value	Calf's genetic ability for pre-weaning growth	Heavy weaner calf	Light				Heavy
	4 Milk Value	Cow's genetic mothering and milking ability	Enough milk for the calf	Less				More
	5 Maintenance Value	Maintenance requirements of cow (cow weight and milk)	Low cow maintenance	High			*	Low
	6 Fertility Value	Fertility and retention of cows and heifers	Fertile cows	Low				High
	7 Growth Value	Efficient growth on veld and in feedlot (R-value)	Profitable growth	Loss				Profit
	8 Carcass Value	Meat on carcass (Weight and RTU EBVs)	More meat on the carcass	Less				More
	9 Production Value	Combination of Cow- and Growth values (R-value)	Profitable animals	Loss				Profit
Cow & Heifer	10 Birth Weight Direct	Birth weight (Calf's genetic ability)	Avg. birth weight	Heavy				Light
	11 Birth Weight Maternal	Birth weight (Cow's genetic ability)	Easy calving	Heavy				Light
	12 Weaning Weight Direct	Weaning weight (Calf's genetic ability)	Heavy weaner calves	Light				Heavy
	13 Weaning Weight Maternal	Weaning weight (Cow's genetic ability)	Good mothers	Poor				Good
	21 Mature Cow Weight	Cow weight at weaning of first three calves	Avg. mature cow weight	Light			*	Heavy
	Cow-Calf Birth	EBV Birth Direct / EBV Mature Cow weight	Average	Low				High
Fertility	Cow-Calf Wean	EBV Wean Direct / EBV Mature Cow weight	High calf-cow ratio	Low				High
	14 Heifer Fertility	Age at first calving	Fertile heifers	Less				More
	15 Cow Fertility	First 3 inter-calving periods (ICPs)	Fertile cows	Less				More
	16 Scrotal Circumference	As measured during the growth test	Fertile bulls	Less				More
Growth & Frame	17 Longevity	Retention of progeny	Acceptable progeny	Poor				Good
	18 Post-Wean Weight	12- and 18 month weights	Good post-wean growth	Low				High
	19 Average Daily Gain	Average daily gain	Good growth	Poor				Good
	20 Feed Conversion Ratio	100g feed intake / g weight gain	Feed efficiency	Poor				Good
	Final Test Weight	Final weight in the growth test	Heavy carcass	Light			*	Heavy
	22 Height	Shoulder / Hip height in growth test	Average height	Short				Tall
	23 Length	Length in growth test	Longer for more muscle	Short				Long
Carcass	24 Length-Height Ratio	EBV Length / EBV Height	Longer rather than tall	<1				>1
	25 Eye Muscle Area	RTU measured eye muscle area	Bigger steaks	Small				Big
	26 Fat Thickness	RTU measured P8 backfat thickness	Carcass quality	Thin				Thick
	27 Marbling	RTU measured % of intra-muscular fat	Juicy meat	Low				High

* Determined by own selection goal

Pannar's **silage maize** hybrids deliver the kind of dry matter performance that turns hectares into horsepower.

PRODUCTIVITY

That's the FARMER in you.

When it comes to feeding your herd and fuelling your operation, every ton counts. Pannar's **silage maize** hybrids deliver high dry matter production, superior energy content, and consistent performance across South Africa's diverse regions. With strong disease tolerance and proven stability, they're ideal for dairies and feedlots. Backed by expert agronomic support and trial data, Pannar helps you preserve more nutrients, reduce losses, and harvest a crop that works as hard as you do.

Rules for sales held under the Auspices of The Boran Cattle Breeder's Society of South Africa

1 Introduction

1.1 Definitions

- 1.1.1 Registered Boran means a Boran that has been entered and accepted onto the BCBS herd database (Logix). A Boran will be accepted into the calf book section (SP/No CLB) on receipt of the calf birth notification. A Boran will be promoted to Studbook Proper (SP/No REG) on passing inspection. A Boran that has been birth notified but registration is pending resolution of an outstanding issue is not a registered Boran in terms of these sale rules. Examples could include the following:- Parentage not Verified (PNV), Parents not Inspected (PNI), MS (Multi Sire requiring verification), Sire requiring verification (PES) and Dam requiring verification (PED).
- 1.1.2 Inspection is a visual appraisal of a Boran by BCBS approved inspectors to ensure compliance with the society's standards of excellence. A Boran must pass inspection to be promoted to the Studbook Proper (SP/No REG) section of the society's herd database within the stipulated timeline. A Boran that fails inspection will be deregistered and removed from the herd database.
- 1.1.3 Screening at sales is an appraisal of a Boran for functional faults and compliance with Society norms and minimum breed standards. In the case of Boran still registered in the calf book section of the herd book, screening does not qualify as an inspection.
- 1.1.4 A Dispersal Sale will be held by a Breeder who is permanently discontinuing the business of breeding and farming with registered Boran, and consequently needs to sell all his registered animals to facilitate deregistration as an active breeder with the society. This sale will be deemed to be a dispersal sale and hence trigger breeder deregistration if:
 - 1.1.4.1 the breeder uses the word "dispersal" or similar words or phrases in their advertising and/or marketing of the sale.
 - 1.1.4.2 the member informs the society it is a dispersal sale.
- 1.2 Members of the Society are encouraged to sell registered Borans under the auspices of the Society. This will ensure that:
 - 1.2.1 the Boran comply with the Society's minimum standards of purity and functionality by verifying the pedigree and performance data,
 - 1.2.2 the Boran is of a consistent quality and high standard by screening each animal on offer,
 - 1.2.3 your clients are protected in that all animals on offer meet the breed standard,
 - 1.2.4 your clients have a reliable method of addressing possible queries and complaints,
 - 1.2.5 the breed develops a trustworthy reputation in the beef industry which builds buyer confidence and peace of mind,
 - 1.2.6 the society can support you in the event of queries, dispute resolution, marketing and publicity,
 - 1.2.7 the benefit of "quality at a fair price" is offered to both buyers and sellers and thereby builds the trust of the buyer market, ensuring the sustainability of our breed.
- 1.3 The Society will approve any production sale of registered Boran cattle provided that:
 - 1.3.1 Prior to the announcement of such sale, the seller must contact the Society with the details of the sale.
 - 1.3.2 Both the Sellers and the Society will sign a written agreement
 - 1.3.3 The Seller adheres to the requirements detailed further in this document.
 - 1.3.4 Should the requirements detailed not be met, the Society will be entitled to:
 - 1.3.4.1 renegotiate the requirements
 - 1.3.4.2 withdraw permission that the sale be presented under the auspices of the Society
 - 1.3.4.3 if warranted, suspend the membership of the relevant member.

2 Application to hold a sale under the auspices of the Boran Society

- 2.1 All sellers' accounts may not be outstanding with the Society, for more than 60 days.
- 2.2 The seller may only sell animals at auction that have been in their possession for no less than 12 months. Only applicable for Boran National Auctions.
- 2.3 The Society and the appointed organizer will handle all communication pertaining to the sale. The organizer will be responsible for the communication with other sellers involved with the sale.
- 2.4 On approval of the application the Society office will furnish the organizer with the official entry forms, which must be completed and returned to the office at least 2 (two) months prior to the date of the relevant sale.
- 2.5 Each seller and the Society will sign a written agreement concerning the conditions that will apply to the sale.
- 2.6 It is the responsibility of the seller to provide all fertility, pregnancy and health certificates prior to the sale and deliver the originals to the auctioneers before the screening date and time.
- 2.7 It is recommended that sales in the same area should not be presented within one week of each other (a province will be regarded as the guide) unless the organizers of both sales agree to such an arrangement.
- 2.8 Only one auction under the auspices of the society can be held on any one day
- 2.9 No other sale may be held three (3) weeks prior to the National sale. However, it is the Council's prerogative to grant permission to hold an auction under the auspices within the three weeks.
- 2.10 Existing sales history will be taken into consideration when sale dates are allocated by the Society. If an auction with history is booked for two years in a row and the auction does not take place in these two years, the seller forfeits the date and the date can be allocated to another seller. If a date is booked and the date change or the auction is cancelled, a fee of R1000 will be charged. If there is a valid reason for the change of the date or the cancellation of the auction, the motivation must be submitted to the council for exemption.
- 2.11 A document detailing the rules and duties of the auctioneers will be submitted to the relevant auctioneers for their signature. The Society reserves the right not to approve an application for a sale to be presented under the auspices of the Society should it emerge that the auctioneering firm is in disrepute with the Society.
- 2.12 Council and staff members of the Society, in their personal capacity, are indemnified against any claims lodged by either buyers or sellers arising from the sale of animals at such a sale.

3 Requirements for animals, embryos, and semen on offer

3.1 Society and Legislative Requirements

- 3.1.1 All Boran on offer must be registered with the Boran Cattle Breeders' Society. The birth notification of calves born up to the day of sale must be submitted to the Society by the seller. Calves born on sale day will be registered by the new owner.
- 3.1.2 Animals not conforming to the minimum breed standards of the Society may not be sold at a sale offered under the auspices of the Society.
- 3.1.3 The pregnancy status of cows on offer must be such that they calve according to the minimum reproduction standards as specified in the Bye-laws of the Society.
- 3.1.4 No female may be offered that is knowingly in calf to any bull other than a registered Boran bull.
- 3.1.5 Embryos offered for sale, donated, included in a lot, or linked to a sale of a lot must be:
 - 3.1.5.1 flushed from Boran cows registered with the Society.
 - 3.1.5.2 accompanied by a signed certificate confirming parentage details, the grade of the embryo and confirmation that the embryos were collected by a registered embryologist at a registered quarantine station.
- 3.1.6 All females older than 30 months on the date of the sale, must be certified in calf by a registered veterinarian.
- 3.1.7 A cow may be sold with her calf at foot provided that the calf is not older than eight months of age at the date of sale.
- 3.1.8 If the calf is younger than eight months, then the cow does not have to be confirmed in calf.
- 3.1.9 Should a seller retain semen straws or a semen share in a bull it must be declared as part of the information that appears in the sale catalogue.
- 3.1.10 When an animal that is jointly owned is offered for sale:
 - 3.1.10.1 The seller must specify the percentage share to be sold together with any other conditions or restrictions that may apply.
 - 3.1.10.2 The progeny of the said animal, as recorded and shown on Logix, must be included in the catalogue.

- 3.1.11 It is important for buyers to note that all Boran registered in the Societies calf book section (SP CLB), which are offered for sale under the auspices, are subject to inspection by the buyer. The screening prior to the sale does not constitute an inspection.
- 3.1.12 Cattle that are not "auction worthy" may under no circumstances be offered at the auction.

3.2 Animal Health

- 3.2.1 All animals offered must have been tested negative in respect of CA and TB as near as possible to the sale date, but not more than three months prior to the date of the sale.
- 3.2.2 Calves sold at foot with their dams are exempt from TB and CA tests.
- 3.2.3 If any of the animals offered for sale test positive for CA, TB, Trichomoniasis or Vibriosis, all the animals offered for sale by the breeder must immediately be withdrawn from the sale, and the office must be informed.
- 3.2.4 Pregnancy certificates stating number of months pregnant must be presented to the auctioneer and must correspond with the information given to the office when compiling the catalogue. The pregnancy certificate may not be older than three months prior to the date of the sale.
- 3.2.5 Within three months prior to the sale, bulls twenty-four (24) months and older, must:
 - 3.2.5.1 have been tested by a veterinarian or a registered veterinary technologist/semen collector for breeding soundness (external & internal genitalia, macro and microscopic evaluation of semen sample).
 - 3.2.5.2 be tested negative in respect of Trichomoniasis, Vibriosis, CA, and TB.
- 3.2.6 Only semen from bulls registered and inspected with the Society, registered in accordance with the Animal Improvement Act No.62 of 1998, have DNA parental verification, and collected by a registered semen collector at a registered quarantine station, may be offered for sale, donated, included in any lot or linked to a sale of a lot. These bulls must be genomically tested and also test free of Pompies mutation and double muscling. The applicable certification from the quarantine station must be submitted to the Society at least 28 (twenty-eight) days prior to the sale date.
- 3.2.7 The health and pregnancy certificates must be submitted by the seller to the auctioneer prior to offloading the Boran at the sale. No animals will be off loaded at the sale facility if the certificates are not presented to the auctioneer or his responsible official prior to offloading.
- 3.2.8 Council reserves the right to institute disciplinary action against a breeder who had, according to the discretion of Council administered hormones/steroids to an animal, which is regarded as unethical and a misrepresentation of such animal.

4 Catalogue

The catalogue is key to a successful sale and to the sellers marketing program. For this reason, it is important that sellers plan their sales well in advance. To provide the required service to seller's deadlines have to be strictly enforced by the society so as to meet the objectives outlined in this document.

- 4.1 The seller is required to submit all the required information to the Society 28 days before the date of the sale. Example: If the auction is on the 30th July, the latest submission time and date would be at 17:00 on the 2nd July.
 - 4.1.1 Only animals that meet the following requirements can be included in the catalogue:
 - 4.1.1.1 appear on the Logix report titled "Selection/Admin" or Kraal Kaart and have the status "Reg" at the submission date. The exception is where the calf is older than 8 months, but younger than 15 months the calf can be included in the catalogue with the CLB status, as a lot B.
 - 4.1.1.2 and in the case of females on the day of sale will:
 - 4.1.1.2.1 have an average ICP less than 730 days (Inter Calf Periods of female animals offered at the National Auction(s) may not exceed 500 days maximum.)
 - 4.1.1.2.2 have calved before 42 months (Female animals offered at the National Auction(s) may not exceed 39 months of age at first calving.
 - 4.1.1.2.3 have been certified in calf by a veterinarian if older than 30 months
 - 4.1.1.2.4 Must have a calf at foot since her last embryo program.
 - 4.1.2 If a breeder submits an entry that has been promoted from CLB to REG in the Selection/Admin report within 4 days after the cutoff time in 4.1, a late entry fee of R500 will be charged per lot to cover administration costs. If an animal is substituted (replaced) with another animal after the cutoff date, a fee of R500 will be charged per lot to cover administration costs.
 - 4.1.2.1 The late entry request form will need to be completed and submitted to the office.
 - 4.1.2.2 The fee will be invoiced and charged to the breeders account and will be payable even if the animal is screened off at the sale.
 - 4.1.3 The seller must provide all the relevant information required on the entry form.
 - 4.1.4 Upon receipt of the relevant entry information, the Society will check the entries and submit a concept sale catalogue within 21 (twenty-one) days of the date of the sale to the sale organizer for approval. A period of 5 (five) working days will be granted to the organizer to submit any changes that are required. The Society will then submit the final catalogue to the auctioneers two weeks prior to the sale date.
 - 4.1.5 Should any information, provided by the breeder to the society for the catalogue, change between the date of submission in 4.3 above and the sale date then the onus is upon the breeder to advise the office, the auctioneer and the inspectors responsible for the screening of such changes prior to screening.
 - 4.1.6 The sale catalogue will conform to the SA Studbook design.
 - 4.1.7 All the breeders' registered animals for sale will be listed in lot sequence in the catalogue.
 - 4.1.8 The rules pertaining to the sales presented under the auspices of the Society must be published at the front of the sale catalogue.
 - 4.1.9 No changes to the catalogue can be made after the entry date has expired.
 - 4.1.10 The sale catalogues provide an annexure per seller. This annexure will be used by the inspectors for the screening of the animals offered at the auction.
 - 4.1.11 The following applies to the breeder comments on the catalogue:
 - 4.1.11.1 The comments box is limited to a certain number of characters. Where relevant, the information below must be displayed and takes precedence over general comments.
 - 4.1.11.2 Pregnancy must be recorded in months.
 - 4.1.11.3 If a cow is sold with the calf, the calf's number and its sire must be recorded.
 - 4.1.11.4 If the cow is pregnant, it must be recorded who the possible sire of the calf will be and how far she is pregnant. The possible sire's ID must be recorded.
 - 4.1.11.5 If the heifer or cow is running with a bull/s, the bull must be in possession of the seller or a loan bull to him. The bull's ID must also be recorded.
 - 4.1.11.6 After that, further comments from breeder can be recorded

5 Screening

- 5.1 The purpose of the screening is:
 - 5.1.1 to verify the identification of the animals on offer
 - 5.1.2 to inspect them for functional faults and compliance with Society norms and minimum breed standards.
 - 5.1.3 to verify that animals that have been flagged by the administrative office meet minimum production standards on the day of the sale.
- 5.2 The inspectors officiating at a sale screening **may not** sell Boran registered in their name on that same sale.
- 5.3 All animals (SP CLB and Appendix A, B & C) presented at the sale will be screened. Boran marked Not for Registration (NFR) will not be subject to screening. CLB (Calf book) animals that pass screening on the day of the sale, are still subject to inspection at the required age.
- 5.4 Sale animals must be available for screening at 12:00 the day before the sale. The Boran office will appoint three senior (3) inspectors for screening animals as sale worthy for the National sale and two (2) senior inspectors for all other sales.
- 5.5 Only the auctioneer's representative will be allowed to accompany the nominated inspectors during screening.
- 5.6 The inspectors will advise the sellers of animals that have been screened off the sale.

Rules for sales held under the Auspices of The Boran Cattle Breeder's Society of South Africa

2014/2015

- 5.7 Sellers must be present or at least contactable after screening. Should sellers not be present, the information will be given to the representatives of the auctioneering firm.
- 5.8 The inspectors will advise the representative of the Auctioneering firm of any animals that fail the screening. The findings of the inspectors will be final.
- 5.9 A breeder of a Boran (both bulls and females) that fail screening shall have either of the following two options:
- 5.9.1 Sell the Boran that has been screened off as a commercial animal, at a commercial sale held not under the auspices of the society that takes place on the same day. The Boran will be deregistered (lose its SP/No REG status) and will lose the right to reinstatement.
- 5.9.2 Remove the Boran screened off immediately from the sale area / sales pens. This Boran will retain its SP REG status on condition that the Boran is immediately returned to its farm of origin.
- 5.10 If either the cow or the calf fails screening, then the entire lot will be deemed to have failed the screening and 5.9 will apply. Lot A and B, where the calf (Lot B) is between 8 and 15 months old and still calf book, will be considered as one lot.
- 5.11 No other type of inspection may be carried out during sale screening.
- 5.12 At least one of the inspectors involved in the screening, or another official appointed by the Society, will be available on the day of the sale to provide a marketing presence for the seller and the Society, to act in an advisory capacity to buyers and to ensure that the auction is conducted in compliance with the above rules.
- 5.13 After the auction (within three days after the sale), the inspector must send the signed screening list to the office for record keeping and transfers.

6 Duties of the auctioneer

- 6.1 The auctioneer must complete in full the applicable Society form and return it to the Society office duly signed.
- 6.2 As the sale will be presented under the auspices of the Society, the sale pamphlet as well as all other advertising copies must be submitted to the Society for approval prior to publication. The official/approved Society logo must appear on all advertising as well as the words "Sale held under the auspices of the Boran Cattle Breeders' Society of SA".
- 6.3 The rules pertaining to sales presented under the auspices of the Society, together with other information supplied by the Society, must be published at the front of the sale catalogue.
- 6.4 Only animals on the catalogue may be sold.
- 6.5 No animals will be allowed to be off loaded at the sale venue if the required veterinary certificates are not presented to the auctioneer or his official responsible for offloading.
- 6.6 The auctioneer will provide one (1) person to assist the inspectors with the screening of sale animals.
- 6.7 The senior inspector is responsible for submitting the signed screening report to the Society within two (2) weeks of the sale.
- 6.8 The auctioneer is responsible for collecting the health, fertility and pregnancy certificates for each animal on the sale. The auctioneer is responsible for distributing these certificates to the new owners after the sale.
- 6.9 The membership numbers of buyers that are registered Boran breeders must be obtained and included with the detail of animals purchased by such buyers in the vendor role.
- 6.10 Before commencement of a sale under the auspices of the Society:
- 6.10.1 the Auctioneer will explain the meaning thereof,
- 6.10.2 the Auctioneer will explain the meaning of 5.1 above,
- 6.10.3 will advise the buyers that the rules of the auction are included in the catalogue,
- 6.10.4 and will advise buyers that they have 90 days from the date of sale to address any issues of concern with the seller that require resolution.
- 6.11 The contracted Auctioneer is responsible for ensuring, that between his organization and the sellers, adequate public liability insurance cover is in place for the auction.

7 Dispersal Sales

- 7.1 All the requirements for sales under the auspices are applicable to dispersal sales, as well as the following:
- 7.1.1 If a breeder intends to hold the dispersal sale in two parts, he may request in writing that Council extend his membership for the agreed upon period.
- 7.1.2 It must be clearly understood that the arrangement of further sales under the auspices of the society, subsequent to the sales as contained in the agreement with the Society, will not be permitted.
- 7.1.3 One year after the dispersal sale, the breeders' active membership of the Society and membership of SA Studbook will be cancelled and all animals not sold will be transferred to a nonmember number. Such person may remain as a nonactive ordinary member. After a lapse of five (5) years he may reapply for active membership of the Society and SA Studbook.
- 7.1.4 All Boran registered with the Society on the date of application in the name of the relevant breeder, company, trust, closed corporation, partnership, or stud names in which he has an interest, must be presented on the dispersal sale.
- 7.1.5 Boran animals sold on a dispersal sale may not be transferred as registered animals to the seller's wife/husband/family member, or any organization (e.g. Company, trust, closed corporation, partnership or stud names) in which he has an interest.
- 7.1.6 A breeder may sell his Herd Designation Mark at his dispersal sale. This will be activated on completion of the required SA Studbook cession form.
- 7.1.7 The Society and SA Studbook membership of a breeder (or of the concerns selling, who have successfully applied for the presentation of a total dispersal sale under the auspices of the Society) will be extended to the end of the financial year within which the final sale takes place, and the full membership fee in respect of that period will be payable by the member/concerns. Thereafter the membership of the seller/s will be terminated or transferred to the nonactive member list if the seller/s so wish. Under either of the aforementioned conditions, the seller/s concerned may only reapply for registered breeder membership upon the lapse of 5 (five) years.

8 Commissions and Fees

- 8.1 The Society will receive a commission, as fixed from time to time by Council, in respect of all sales held under the auspices of the Society. This will be calculated as a percentage of the total turnover of the sale. The commission will be collected from each seller and paid across to the Society within 7 (seven) working days, failing which penalty interest at the ruling prime rate will be levied.
- 8.2 Sellers who privately sell animals after the sale, will be liable for the total commission as set out in the sale agreement, if those animals were entered for the sale and went through the ring.
- 8.3 Should a bid be accepted during an auction under the auspices of the Society (regardless of who the buyer is), commission of 1% will be levied on the transaction as per Society's sales agreement.
- 8.4 Commission will be applicable on semen and embryo sales.

9 Buyers

- 9.1 Should a problem arise with an animal that a buyer has purchased on the sale, the buyer has 90 days from the sale date to raise the issue with the seller and / or council.

10 Sellers

- 10.1 For all entries the animal's sire's must, be verified by DNA (compulsory sire verification). However, both Sire and Dam verification is encouraged.
- 10.2 Sellers are expected to take the necessary remedial action in the event that the parentage of unborn calves of females sold under the auspices is not as stated in the catalogue when the calf is born after the sale. The onus is on the seller to reach an amicable solution with the buyer. Failing which the seller will refund the buyer and the buyer will return the Boran cow and calf to the seller.
- 10.3 Where females are in calf to "multi-sires", the identity numbers of the possible sires used must be supplied and each possible sire must have a DNA profile (Lab number) recorded.
- 10.4 All registered bulls used in the herd must have a DNA profile recorded on Logix

11 General Rules

- 11.1 All animals advertised must be presented on the day of the sale and the Society reserves the right to demand veterinary certification regarding an animal withdrawn, other than in the case of death and the subsequent cancellation of the animal
- 11.2 All applications for other forms of sale (e.g. internet sale under the auspices of the Society) should be submitted to the Society in sufficient time to allow for the practical application of the principles contained in this document.

12 Requirements for Internet/Online Auctions

- 12.1 There must be a time span of one day between the closing dates of Internet/Online sales and the next auction's starting date.
- 12.2 All applications for internet/online auctions should be submitted timeously and in writing to the Council with the view to the practical application of the principles contained in the rules for sales held under the auspices of the Boran Cattle Breeders' Society of South Africa. The sale screening costs for internet/online auctions will be direct costs for the seller. Screenings of animals before an internet/online auction, must be done within two weeks prior to the auction. Please submit your request for a screening in writing to the Technical advisor (Christopher Havenga) and a screening will be arranged accordingly.
- 12.3 All veterinary documents for Internet/Online auctions must be received by the office two weeks before the beginning of the auction. This documentation includes: Breeding soundness (external genitalia, internal genitalia (rectal examination), macro- and microscopic evaluation of semen sample) in bulls and certificates for the testing of Trichomoniasis, Vibriose, CA and TB (males and females). Animals will not be sold if the documentation is not submitted in time. The same requirements apply as stated in the requirements for auctions held under the auspices (3.2 Animal Health)
- 12.4 In the event of a disease outbreak, such as Foot-and-Mouth, that prevents auctions from being held, the following procedures will be implemented regarding the screening of animals:
- 12.4.1 All screenings of animals intended for the online auction will take place on the farm of the seller, prior to the auction.
- 12.4.2 In the event that an auction is successfully concluded, the relocation of animals from the seller's farm to the buyer's premises will be subject to agreement between the seller and the buyer. The Boran Society will not be a party to these agreement, and the Society do not guarantee the relocation of animals in any way.
- 12.4.3 The seller and buyer must agree on a timeline for the relocation of animals that is both fair and safe, taking into account the prevailing disease conditions and any relevant regulatory requirements.
- 12.5 All other rules in this document also apply to internet/online auctions

The successful marketing of Boran stud animals is an important aspect of our members' economic success. For this reason, all steps must be taken to ensure that the Boran we sell meet our breed standards and our requirements of quality. This is the only way we can build the trust of the buyer market. In addition, breeders are expected to conduct themselves with integrity, and with the shared values and ethos of our fellow breeders and the Society. Please contact the Society or a council member should you have any suggestions on how to improve sales under the auspices of the Society. Best wishes for a successful sale.

The Logix Selection Values are compiled of specific genetic building blocks, as indicated in the selection value descriptions on the next page. These genetic building blocks are indicated in the catalogue by their Breeding Value indices and accuracies.

PHENOTYPIC VALUES

Birth Weight	205D Weight	365D Weight	540D Weight	ADG Index	FCR Index	Scrotum	LH
47kg	239kg 109 (19)	284kg 99 (10)	390kg 92 (10)	1680g/d 90 (13)	6.08 98	353mm (D1)	1.20

10

12

19

20

16

24

- 205D, 365D, 540D weights - adjusted weaning, year and 18 month weights, the phenotypic index obtained, and the number of animals in the contemporary group
- ADG and FCR Indices - phenotypic index obtained within the animal's contemporary group
- Scrotum - adjusted scrotal circumference, in mm, as measured at the end of the growth test, as well as the growth test type
- Length-Height Ratio (LH) - the animal's length to height ratio, as measured at the end of the growth test

LOGIX SELECTION VALUES

COW VALUE 108	
103	Calving Ease Value
118	Calf Growth Value
86	Milk Value
80	Maintenance Value
110	Fertility Value
GROWTH VALUE 105	
CARCASS VALUE 110	
PRODUCTION VALUE 103	

Logix Cow Value

Selection of:

- Fertile cows,
- with low maintenance,
- that calf easily,
- and wean heavy calves relative to own weight

Calving Ease Value

Low birth weight calves

Calf Growth Value

Heavy weaner calves

Milk Value

Good mothering ability

Maintenance Value

Low cow weight

Fertility Value

Fertile cows (calve early and regularly while family is retained in stud herds)

Measurement: Birth weight
EBVs: Birth Weight Direct and Maternal

Measurement: Weaning weight
EBVs: Weaning weight Direct

Measurement: Weaning weight
EBVs: Weaning weight Maternal

Measurement: Mature cow weight, Weaning weight
EBVs: Mature weight + 10% Wean Maternal

Measurement: Age at first calving, ICP and retention
EBVs: Heifer fertility, Cow fertility, and Longevity

Logix Growth Value

Selection for efficient growers on veld and in feedlot

Measurements: Phase C and D Growth test traits

EBVs: Weaning weight, End weight, ADG and Intake

Logix Carcass Value

Selection for higher meat yields on a carcass

Measurements: Phase C and D Growth test traits, RTU scanning traits

EBVs: End weight, Eye Muscle Area and Fat

Logix Production Value

Selection for profitable animals

80% of the Cow Value, and 20% of the Growth Value

HOW TO USE SELECTION VALUES

Logix Breeding Value Indices and Selection Values are versatile and can be used effectively to select various types of animals suitable for different environments and markets. Three examples of selection goals are shown. Always check all selection values for compatibility with your specific selection goal and never select only on the Cow Value.

AVERAGE ANIMALS

(NO GROWTH EXTREMES)

COW VALUE 115	
108	Calving Ease Value
106	Calf Growth Value
106	Milk Value
101	Maintenance Value
100	Fertility Value

- Selection Values 90 to 110
 - Cow Value & Fertility Value average to high
- A safe choice, as animals are profitable in most environments.

GROWERS

(GOOD ENVIRONMENT)

COW VALUE 115	
86	Calving Ease Value
122	Calf Growth Value
116	Milk Value
81	Maintenance Value
100	Fertility Value

- Calf Growth / Growth Value > 110
 - Cow Value & Fertility Value average to high
- Growers are heavier at birth (lower Calving Ease Value), and heavier at maturity (lower Maintenance Value).

LOW-MAINTENANCE ANIMALS

(HARSH ENVIRONMENT)

COW VALUE 115	
112	Calving Ease Value
96	Calf Growth Value
117	Milk Value
115	Maintenance Value
100	Fertility Value

- Maintenance Value > 110
 - Cow Value & Fertility Value average to high
- Lighter cows have a lower maintenance (higher Maintenance Value).

EXPLANATION OF BREEDING VALUES AND SELECTION VALUES

Traits		Description/Measurement	Goal	General Guidelines							
				<80	<90	90-110	>110	>120			
Selection Values	1	Cow Value	Combination of Calving Ease, Calf Growth, Milk, Maintenance and Fertility Values (Rand-Value)	Profitable Cow	Loss					Profit	
	2	Calving Ease Value	Risk for calving problems (calf too heavy) vs calf too small	Avg. birth weight	High					Low	
	3	Calf Growth Value	Calf's genetic ability for pre-weaning growth	Heavy weaner calf	Light					Heavy	
	4	Milk Value	Cow's genetic mothering and milking ability	Enough milk for the calf	Less					More	
	5	Maintenance Value	Maintenance requirements of cow (cow weight and milk)	Low cow maintenance	High				*	Low	
	6	Fertility Value	Fertility and retention of cows and heifers	Fertile cows	Low					High	
	7	Growth Value	Efficient growth on veld and in feedlot (R-value)	Profitable growth	Loss					Profit	
	8	Carcass Value	Meat on carcass (Weight and RTU EBVs)	More meat on the carcass	Less					More	
	9	Production Value	Combination of Cow- and Growth values (R-value)	Profitable animals	Loss					Profit	
Cow & Heifer	10	Birth Weight Direct	Birth weight (Calf's genetic ability)	Avg. birth weight	Heavy					Light	
	11	Birth Weight Maternal	Birth weight (Cow's genetic ability)	Easy calving	Heavy					Light	
	12	Weaning Weight Direct	Weaning weight (Calf's genetic ability)	Heavy weaner calves	Light					Heavy	
	13	Weaning Weight Maternal	Weaning weight (Cow's genetic ability)	Good mothers	Poor					Good	
	21	Mature Cow Weight	Cow weight at weaning of first three calves	Avg. mature cow weight	Light			*	*	Heavy	
		Cow-Calf Birth	EBV Birth Direct / EBV Mature Cow weight	Average	Low					High	
		Cow-Calf Wean	EBV Wean Direct / EBV Mature Cow weight	High calf-cow ratio	Low					High	
Fertility	14	Heifer Fertility	Age at first calving	Fertile heifers	Less					More	
	15	Cow Fertility	First 3 inter-calving periods (ICPs)	Fertile cows	Less					More	
	16	Scrotal Circumference	As measured during the growth test	Fertile bulls	Less					More	
	17	Longevity	Retention of progeny	Acceptable progeny	Poor					Good	
Growth & Frame	18	Post-Wean Weight	12- and 18 month weights	Good post-wean growth	Low				*	High	
	19	Average Daily Gain	Average daily gain	Good growth	Poor					Good	
	20	Feed Conversion Ratio	100g feed intake / g weight gain	Feed efficiency	Poor					Good	
		Final Test Weight	Final weight in the growth test	Heavy carcass	Light				*	Heavy	
	22	Height	Shoulder / Hip height in growth test	Average height	Short					Tall	
	23	Length	Length in growth test	Longer for more muscle	Short					Long	
	24	Length-Height Ratio	EBV Length / EBV Height	Longer rather than tall	<1					>1	
	Carcass	25	Eye Muscle Area	RTU measured eye muscle area	Bigger steaks	Small					Big
		26	Fat Thickness	RTU measured P8 backfat thickness	Carcass quality	Thin					Thick
		27	Marbling	RTU measured % of intra-muscular fat	Juicy meat	Low					High

* Determined by own selection goal

WETENSKAPLIK GEFORMULEER VIR OPTIMALE PRODUKSIE

HOEKOM KIES BOERE VIR ENS?

- Pasgemaakte verhoudings gebou op integriteit
- Praktiese, wetenskaplike formules vir jou plaas
- Ekonomiese opbrengs wat jou winsgrense beskerm

ONS PRODUKKEERS SLUIT IN:

HPK-Konsentrate: Vir vleisbeeste, skape en slagvee (insluitend ons gespesialiseerde Zilmax reeks).

Lekke & Lekkonsentrate: Doeltreffende winter, s omer en produksielekke.

Volledige Pille: Skaapafrond, oilaktasie, ram/lam en kruippille.

Lekblokke: Landelek, P6, Somerlek- en die veelsydige Wildequiblok.

DYNAMIC
MAINTENANCE & REPAIRS

ABOUT US

Dynamic Maintenance & Repairs is a commercial vehicle workshop conveniently located in Pietermaritzburg. We offer a full spectrum of services to keep your fleet functioning optimally.

- Repairs and Maintenance
- Electronic diagnostics
- COF Repairs
- We carry out repairs to major components
- 24hr Breakdown service
- Repairs to all makes of vehicles

Whether you need routine maintenance or emergency repairs, our team of experts are here to help.

A full-page photograph of a smiling Black man in a workshop. He is wearing a black work jacket over a grey t-shirt, black work pants, and black work boots. He is wearing purple work gloves and is leaning his right hand on a metal workbench. The background shows industrial equipment and a large workshop space with warm lighting.
